Just so we're all 100% clear here: When you share a file, data is being transferred between your computer or phone and our servers, then from our servers to your friends device. The cost of that data transfer is covered by your internet service or the data plan on your phone. There are norestrictions on the number of times a file can be downloaded. Unfortunately, we can't make that part free. You can upload any type of file (movies, music,documents, images, zip files and more). Alternatively you can choose to share your download links on blogs, forums and social networking sites. Using file,you can circumvent those limits without paying to upgrade your team chat service. So try our free and simple filehosting service now. It is also allowed to linkto the download page from websites and communities. Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing youmoney in data storage fees. File is free to use with no gotchas and no hidden fees.
